# Transforming Delegations

Is managing delegations a time consuming, resource-intensive job? It doesn't need to be that way!

With RelianSys® Delegations or **Delegations +**, the onerous and complex tasks of creating and maintaining your Delegations Registers becomes simple and easy.

RelianSys® Delegations will transform the way your Organisation manages Delegations.

# Delegations +

## Streamline the job of managing Delegations Registers

The **Delegations +** module is designed for complex, multi-layered organisations with high governance standards and more demanding requirements.

It delivers greater transparency, with robust business rules and is feature rich. It has been developed to the highest standards.

**Delegations +** is a unique application in the Australian market, with the capacity to automate the entire delegations process and handle complex, sophisticated delegations structures.

## Standard features Plus more.

**Create Custom reports**  
Create customised reports that match your organisation's requirements. No more manual reformatting.

**Make Pages Public**  
Publish public delegations directly to your website in real time, eliminating manual updates.

**Record of Actions and Changes**  
Audit trails for any changes or actions.

**Custom Columns**  
Ability to add new customised columns into internal instruments.

**Read Check**  
Improved accountability for delegates, by acknowledging they have read and understood their delegations.

**Multiple Levels of Sign Off**  
Streamlines the entire approval process, saving time and eliminating paper-based approvals.

**Position Changes**  
When positions change, users receive an email notification and can log in to check their current delegations.
